

ACCEPTANCE OF PAPER PROPOSALS

We are pleased to inform you that many more paper proposals have been received than initially expected, revealing the interest aroused by this CIRIEC-International Congress.

The Congress Secretariat, after evaluation, has sent **letters of provisional acceptance as well as letters of non-acceptance** to all the proposals for papers submitted for this 33rd Congress. Definitive acceptance is conditional on the effective registration of at least one of the authors in the Congress. Authors who sign an accepted paper and do not attend the Congress must pay a fee of 100 euros each.

Accepted papers will be presented in three formats:

1. On Tuesday 14th June, face-to-face, in 2 simultaneous sessions at the Palau de les Arts, in accordance with the Congress Programme. A small number of papers will be presented;
2. On Tuesday 14th June, face-to-face, in several simultaneous sessions, at the Faculty of Economics of the University of Valencia. A small number of papers will be presented;
3. Online, in video format, available on the Congress website.

The definitive prioritisation in the choice of format will be made by the Scientific Committee of the Congress once the researchers have registered.

If you need proof of acceptance of the paper for different purposes, such as obtaining permissions from your universities, or if you encounter any problems, please write to us at ciriec2022@gmail.com. Also, if you prefer a video presentation, please let us know before **april 15th**.
